Universal Clutch Alignment Tool	151-102	\$93.41

Clutch Service Tool

SLP Clutch Press Tools have been widely accepted as the most efficient clutch compression toll available. This revolutionary drive and driven clutch servicing tool is designed specifically for compressing and holding springs for ease of assembly and disassembly. These tools are specified in many factory repair manuals as a required specialty tool for clutch compression. Made compact the SLP tool can be used for field testing or production clutch repair on the shop bench.

STA20-204 is a new design that allows disassembly and assembly of all Rapid Reaction Secondary Clutches without any adapters. This new design incorporates adjustable stand-offs that can be adjusted in or out to allow proper fit for many different clutches.

SPO Snowmobile Two Stroke Oil: Torco SPO is a specific blend of synthetic and petroleum base oils designed for high output snowmobile engines. It is formulated for low temperature conditions and offers clean performance to maintain higher compression, eliminate deposits and improve combustion. Exceeds API-TC, JASO-FC and ISO-L-EGD performance. For premix or injector use.

SSO Snowmobile Two Stroke Oil: Torco SSO is a 100% synthetic based 2-cycle oil designed for high performance snowmobile engines. This super cold flow, smokeless formula offers unsurpassed protection against wear, friction, deposits, corrosion and plug fouling. Exceeds API-TC, JASO-FC and ISO-L-EGD performance. For premix or injector use.

SCC Snowmobile Chaincase Oil: 100% Synthetic base fluid designed to protect all critical drive components found in snowmobile chain cases. It is an MPZ fortified formula that provides excellent anti-friction, anti-wear and shock load protection. Highly recommended for racing applications.

MPZ Spray Assembly Lube: MPZ Spray Lube is a high tech multipurpose lubricant that stays put and won't let go. It is a friction proof, wear proof, corrosion proof, rustproof, waterproof and non-melting. Leaves a heat resistant film that won't run, drip, or evaporate off treated metal surfaces. Recommended for assembly of engine and transmission components.

MPZ Engine Assembly Lube: MPZ is a non-melting concentrate of oil soluble molybdenum phosphorus and zinc fortified with polymers to increase its adhesive strength. Engine Assembly Lube is designed as a prelube for cylinders, pistons, wrist pins, cams, plain bearings, ball bearings, roller bearings, journals, and gear sets. Cam Lube is a gelled version of assembly lube designed for ant-scuff protection of cam lobes, lifters and other highly stressed valve train components.

Amsoil Products

Description	Part #	Price (D)
Interceptor Synthetic – 3.784 L	AMS4LT1	\$59.95 ea.
Synthetic Chaincase Oil – 355 mL	AMS16206	\$12.39 ea.
Gasoline Stabilizer – 472 mL	AMS16006	\$17.95 ea.
Synthetic Shock Oil Light #5 – 946 mL	AMSSTL01	\$19.95 ea.
HP Injector Synthetic 2-cycle – 3.784 L	AMSHP4L	\$55.95 ea.
Silicone Spray Lubricant – 10 oz.	AMSCLS-SC	\$11.95 ea.
Miracle Wash – 13 oz. can	AMSCMW-SC	\$16.95 ea.

Interceptor Synthetic 2-cycle Oil:

Excellent exhaust power valve performance.

Synthetic Chaincase Oil: Provides superb cold temperature flow and high temperature stability.

Gasoline Stabilizer: Prevents fuel deterioration during storage, allowing easier start-ups. Suitable for gasoline or diesel fuel.

Shock Therapy Suspension Fluid: Light #5. Contains anti-wear agents that reduce internal wear and contains anti-foaming additives for consistent, smooth dampening. Added seal conditioners keep seals soft and increase their service life.

HP Injector Synthetic 2-cycle Oil: For top performance with DFI, EFI and carbureted fuel systems.

Silicone Spray (ALS): Perfect for lubricating non-metallic surfaces that come into contact with metal, nylon, cardboard, fiberglass, wood or plastic surfaces. Special non-staining formula. Excellent for waterproofing leather boots, shoes, jackets, suede, etc.

Miracle Wash: This unique dry car wash and polish delivers outstanding performance and quick, easy and economical spray application. No water required. Repels dust and light dirt particles and protects against the sun's ultraviolet rays.

Wynn's Products

Description	Part #	Price (D)
Carburetor/Brake Cleaner – 503 g	60201	\$13.95 ea.
Engine Fogging Oil – 350 g	59801	\$11.95 ea.
Fuel Stabilizer – 325 mL	59601	\$8.95 ea.

Carburetor/Brake Cleaner: Cleans without dismantling. Helps prevent dangerous stalling and rough idling.

Engine Fogging Oil: Protect your investment with the off season fogging oil from Wynn's.

Fuel Stabilizer: Protect your investment from that long summer sit. Stabilizes fuel so you don't have to clean those carbs out in the fall.

Fuel Additives and Fluid Evacuators

Plexus

Plexus seals the pores in plastic surfaces with a micro-thin layer of shiny, protective wax. The plastic becomes resistant to debris, oil, scratches and eventual yellowing. Its anti-static properties repel dust and lint. It leaves no smears or smudges. Plastic makes coloured plastics vibrant, clear plastic virtually transparent and plastic paints gleaming like new.

Water Eliminator

Place the Water Eliminator in your fuel tank for up to 60 days and it automatically removes the water without the inconvenience of having to use gas line antifreeze every time you fuel up. Can be used in Diesel, Gas, Fuel oil, Kerosene or Hydraulic fluid.

Description	Part #	Price (E)
Water Eliminator – 7"	007-450	\$19.99 /pair

Fitch Fuel Catalyst

- Increases mpg, horsepower & torque
- Quicker throttle response
- Smoother running engine
- Permanent stabilizer for off-season storage
- Reduces or eliminates ping and knock
- Allows for a lower octane fuel
- One-time application for the life of the engine
- Good for 2 & 4 stroke engines

Description	Part #	Price (F)
Fitch Fuel Catalyst	007-421	\$79.95

BDx Xtreme Duty Oil Change Kit

Superior synthetics that exceed OEM specifications to improve lubrication and reduce wear in demanding high performance applications. This is a complete convenient change kit, that comes with the exact amount of BDx Xtreme Duty Case Oil, the correct gasket material (Kit BDx50024) and the drain plug o-ring. Engineered for the recommended annual fluid change or gear change to provide maximum performance and durability in all applications.

For Models	Description	Part #	Price (F)
2009+up Reverse Case	15 oz	BDX50028-15	\$19.42
2007-08 Reverse Case	12 oz	BDX50028	\$16.82
2004-06 Diamond Drive	3oz with Silicone, O-ring and Dispenser	BDX50024	\$12.92

Description	Part #	Price (D)
Super Siphon	680-1330	\$6.95

Shaker Siphon

- 6 foot anti-static tube
- Moves up to 3.5 gallons a minute
- Perfect for home, auto, ranch, marine or farm

Description	Part #	Price (D)
Shaker Siphon	680-1329	\$12.95

IN-12072 Fluid Evacuator (7.3 Liter capacity)

- Fluid Evacuator creates vacuum. Large capacity: 7.3 liters.
- Provides a clean, fast and simple way to evacuate a wide range of fluids.
- Includes five feet of flexible hosing and two rigid dipstick tubes for engine oil removal.
- Automatic shut off valve prevents overfilling— shuts off at 7.3 liters.
- Sturdy base with exterior pump prevents evacuator from tipping.
- No electrical or compressed air required.
- Can be used to bleed hydraulic brake systems in with brake bleeding access kit.
- Durable Polyethylene construction is impervious to automotive and household chemicals.
- Can be used to evacuate wide range of fluid types: Engine Oil, Transmission Fluids, Gear Oil, Coolant, Brake Fluid, Other Fluids.

Description	Part #	Price (E)
Fluid Evacuator	IN-12072	\$104.46

LiquidVac

Quickly and easily remove old oil or anti-freeze without the mess. Simply insert the suction hose into the dipstick tube or coolant bottle, then apply a vacuum to the LiquidVac tank with several strokes of the high volume hand pump. Powerful vacuum action quickly draws the old fluid into its big 2 gal. capacity tank.

Description	Part #	Price (E)
LiquidVac	STA20-148	\$75.95

Seals, Lubricants and Tools

Isoflex Crankshaft Bearing Grease

Isoflex Topas NB 52 is a fully synthetic, long-life, high-speed, spindle bearing lubricant. It is well suited for high speed, medium to high loads, and excellent coolant resistance.

CruzTOOLS

EconoKIT
by CruzTOOLS

Econokit Snowmobile Tool Kit

- With this kit, you can tackle problems with your own sled — or almost anyone else's
- Designed for the most common fasteners used on Arctic Cat, Polaris, Ski-Doo and Yamaha sleds
- Contains five combination 10mm, 12mm, 14mm, ½" and ¾" wrenches; and 8" adjustable wrench; 2 hex keys (⅜", 2.50mm) and two Torx® keys (T-20, T-25); a locking pliers; a ⅜" spark plug socket; and a 6-in-1 reversible screwdriver
- It all goes into a 600 denier Cordura® zippered pouch, which also contains cable ties, mechanic's wire and a shop towel

632102

Description	Part #	Price (D)
Econokit Snowmobile Tool Kit	632102	\$59.95

Fanny Pack Tool Kit

- So complete, you're ready to ride
- Includes wrenches, pliers, hex keys, screwdriver, packWrench™, flashlight, tire levers, tire gauge and more
- Top quality hardware and straps
- Pouch designed to handle heavy trail abuse using 5040 nylon with plenty of extra storage

632101

Description	Part #	Price (D)
Fanny Pack Tool Kit	632101	\$99.95

Econokit Tool Kit

- A general-use kit for a wide variety of non-metric vehicles
- Includes ⅜", ⅞", ½" and ⅝" combination wrenches, 8" adjustable wrench, 6-in-1 screwdriver, locking pliers, tire pressure gauge, electrical tape, cable ties, mechanic's wire, thread locker, WD-40®, and shop towel
- Packaged in a coated polyester zip-up

Big Wheel Shop Dolly

Big Wheel Shop Dolly from Sno-Stuff has a new breed of shop dolly that isn't your average "run of the mill" shop dolly.

Our Big wheeled sled mover has a number of distinct advantages over the competitions "same old-same old"

design. The most obvious of which is our large diameter, narrow profile, and high strength wheels. These wheels allow for dramatic ease of motion over large obstacles, gravel, snow, slush, or garage thresholds. The high-pressure tires withstand the extreme weight of today's heaviest sleds without so much as a whimper. Another revolutionary design feature is our new "swept back" design, which aids in leverage for easy lifting. As importantly, it makes handlebar and windshield clearance problems a thing of the past because the balance point is achieved without the cross bar ever coming close to the handlebars or windshield. People with handlebar hooks, riser blocks or flared/high windshields will notice this benefit immediately.

Premium: yellow finish, Polymer wheels, industry exclusive remote activated leg extension kit for a-arm suspension

- Can be used with 151" and longer tracks with the addition of a track sling

Additional Features:

- Big Wheels for Easier Handling
- Large Diameter, Heavy Gauge Tube Construction
- Swept Back Design for Easier Lifting
- Industrial Grade Painted Finish
- Quick, Adjustable Lift Strap
- High Pressure Tires
- Rubber Protected Lift Tubes
- PVC Coated Lift Hook
- UPS Shippable

Clymer Manuals

Clymer and Intertec repair manuals offer complete repair information and are designed for both do-it-yourselfers and professional mechanics. Readers learn the skills that let them save money on maintenance and repair bills and enjoy the satisfaction of working on their own snowmobile.

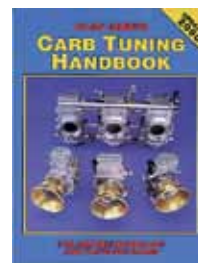

Every Clymer manual features detailed illustrations and photographs that guide the reader through each job. These titles include information covering troubleshooting, lubrication, maintenance and tune-up, engine overhaul procedures, primary and secondary clutch fundamentals and service, fuel systems, exhaust and emission control systems, electrical systems, front suspension steering, rear suspension and track, brake service and more. Complete wiring diagrams for all models are included.

"As the Snow Flies"

This Publication provides the first recorded complete history of early snowmobile development in both Canada and the United States. The time frame is from 1900 to 1960 which is the period pioneering work was done. Small recreational and utility snowmobiles, large track driven snowmobiles, as well as propeller driven snow vehicles are covered. There is a separate chapter for each company or person who produced snowmobiles on a commercial basis during the specified time period. Each chapter includes coverage of the trials and tribulations of the inventors, as well as specifications of the models being developed. Sales brochures and copies of patents are included when available. A bibliography is included at the end of each chapter. The last two chapters provide an engineering and performance analysis of the various designs, as well as a chronological history of the important events in snowmobile development.
